

The quality you demand
remains the same...

FORENSIC AND INVESTIGATION

...but law and regulations evolve

Carter Backer Winter

The regulatory and legal landscape is always evolving but the qualities you demand remain the same. You need experts who bring a blend of flair and expertise, commitment and experience to every assignment. You want incisive and imaginative professional advice that is delivered quickly, clearly and cost effectively. We give all this and more besides.

At Carter Backer Winter our team of accredited experts is experienced in every area in which a forensic accountant might assist, whether in civil or criminal proceedings. No matter what the complexities of the case, we have the skills to make sense of it, then present our findings clearly and convincingly, if necessary by testifying in a court or formal hearing.

The Forensic and Investigation team maintains its practical experience in business issues by being responsible for all of the due diligence and corporate finance reporting undertaken by Carter Backer Winter, as well as running specialist audits.

Experience, the difference

Three qualities define the difference clients experience when choosing Carter Backer Winter. Forensic Partners Peter Luscombe and Paul Smethurst explain:

Knowledge

"We often deal with mountains of data and a myriad of issues. Our duty is to be thorough but imagination is critical too. We know where to look, what to look for and how to present what we find with clarity."

Peter Luscombe, Partner

Value

"All of our clients are cost and risk conscious. They want to know what exposure they face and where the problems are - and they want to hear this as soon as these issues arise. That's what we do. We pick up the phone and talk to our clients directly."

Paul Smethurst, Partner

Commitment

"It comes down to customer service and accessibility. The issues we deal with for our clients are often critical for their future. You have to be available and accessible."

Peter Luscombe, Partner
